April 7, 2020

For students who registered to take "Applied Statistics in English"

2020 Applied Statistics in English

2020 Applied Statistics in English (Elective course, 1 credit) will be conducted as follows.

[Objectives]

The main theme of the course is to learn new methods and applications of statistical data analysis. Students will obtain theoretical, methodological and basic knowledge of the applied statistical methods, and the ability to solve statistical problems for their own research.

[Date] Friday, November 27, at 9:00-16:40

      Lecture 1: 9:00-10:30   Lecture 2: 10:40-12:10

      Lecture 3: 13:30-15:00   Lecture 4: 15:10-16:40

[Lecturer] Prof. KAYANO, Mitsunori (Obihiro University)

●   Before you take lectures, you need to submit a report to the statistics advisor as indicated below and get instructions in advance. You cannot earn credit taking lectures only.

[Report to the statistics advisor and advanced instructions]

Students who take the lectures need to write advanced report no.1 downloaded from the UGAS website and submit it to the statistics advisor. You will be given advanced guidance from him. After getting advanced guidance, you write what you were instructed on the advanced report no.2. After been checked from the statistics advisor, please submit the report no.1 and 2 to the UGAS office (rendai2@iwate-u.ac.jp). Deadline of reports no. 1 and 2 is Friday, November 1, 2020.

[Statistics Advisor for the Applied Statistics in English]

Name	E-mail address
KAYANO, Mitsunori	kayano@obihiro.ac.jp

Statistics advisors for the students who attend the Applied Statistics in Japanese is different from that in English. Please see the announcement of that in Japanese also.
